# **BERIFLEX® 450/750V O.R.**

Automation multicore **UNSCREENED** cables

- 1 - Conductor
- 2 - Insulation
- 3 - Sheath

**APPLICATION:** Suitable for energy transport, signaling and control in the connections of industrial equipment such as control panels and onboard instruments where the CPR EU 305/2011 classification is not required.

**INSTALLATION:** For fixed indoor installation in dry or wet environments and temporarily outdoor. Not for direct burial.

# **BERIFLEX® 450/750V O.R.**

Automation multicore **SCREENED** cables

- 1 - Conductor
- 2 - Insulation
- 3 - Shield
- 4 - Sheath

**APPLICATION:** Suitable for energy transport, signaling and control for connections of industrial equipment such as control panels and onboard instruments when a particular degree of protection against electromagnetic interference is required and the CPR EU 305/2011 is not required.

**INSTALLATION:** For fixed indoor installation in dry or wet environments and temporarily outdoor. Not for direct burial.
